

Dance Called Delight

I remember when you found me
On that cold day in spring
And took me from a dark place
Into the light
And you opened up the door
Been closed so long
Lifted me up high
On a dance called delight

In the twilight misty mornings
When the sun hides its glow
Even when the raindrops
Fall with all their might
Your smile breathes some sunshine
Into my heart
I know that because
I'm on a dance called delight

Chorus

Dance called delight
Takes me down easy
Drift me on to places
I've never known
Dance called delight
Takes me down easy
Without you these dreams
Would have flown

I hope you never leave me
To feel despair
And you never lose the magic
You can weave at midnight
Don't change the way your laughter
Breaks spell of gloom
Because you'll be forever
My dance of delight

Chorus

**Dance called delight
Takes me down easy
Drift me on to places
I've never known
Dance called delight
Takes me down easy
Without you these dreams
Would have flown**

**In the nature of this life
All things must end
And when the angels take me
On the final flight
I will know in my heart its
Been worthwhile
To know I've been with you
On this dance called delight**
